

NAUTITECH 40

General Data:

Overall length:	11,98 m
Waterline length:	11,50 m
Maximum beam:	6,50 m
Draft:	1,2 m
Bridge deck clearance:	0,75 m
Headroom height:	1,9 m
Sails area:	87 m ²
Engines:	2 x 28,6 hp
Light displacement:	7,4 T
Water capacity:	2 x 300 L
Fuel capacity:	2 X 135 L
Classification certificate:	Category A

Construction:

NPG gelcoat and first layer of solid laminate impregnated with NPG resin, guaranteeing an excellent barrier against osmosis.

In order to get the best ratio between strength and weight, carriage and deck are entirely constructed in GRP sandwich with PVC foam core.

Also, the main structural bulkheads are constructed in first choice multi-ply plywood, and the rudder stocks are in F16PH stainless steel with height mechanical properties, mounting on self-aligning bearings.

Separate fin keels fixed under the hulls constituting a "fuse" if inadvertently grounding, with a soft wear plate for beaching.

Outside equipment

Deck and fittings:

Deck stepped mast in anodised aluminium with single spreaders, equipped with:

- One ST44 two speed winch.
- One snatch block for reef line return.
- EC Navigation lights.
- One winch handle pocket.
- Boom topping lift on aluminium cleat, diameter 12
- Two lazy-jack deadeyes.
- Mainsail rail and roller traveller.
- All mast fairleads.
- Mainsail halyard with clutch (diameter 12).
